About RapidFence

RapidFence offers Australians a powerful yet elegant solution for securing homes, pools, gardens and commercial sites.

Crafted from Maztech™ Steel — a pre-coated steel alloy of zinc, aluminium and magnesium — it offers superior corrosion resistance compared to traditional galvanised steel.

Plan your perimeter, garden or pool fencing with our fence planner and add straight to your Bunnings cart.

Try it today on desktop or mobile

Protecting What Matters

RapidFence products are made to help Australians protect what matters most.

Our range of DIY pool and garden fences, gates and fence accessories are designed to make it easy for you to choose, buy and install the right fence for your needs.

Our fences are made of steel to ensure they meet our rigorous standards and can last the distance.

It's strong

Steel is well known, sought after and preferred because it's strong. Unlike other common fencing materials, such as timber, steel is built and designed to last and outlast the alternatives. You can rely on its strength to keep you, your family and your home safe and secure. RapidFence's pool safe range also offers the additional safety and security of being compliant for use in pool areas.

It's durable

The strength of steel means it is long-lasting. Be it rain, hail, wind or shine, steel will withstand the harshest conditions of Australia's varied climate, and is less likely to warp or bend under pressure from weight, force or heat. Steel is also more resilient against dents and scratches than aluminium.

It's cost-effective

Steel is competitively priced and because the Rapid Fence range is so quick and easy to install you can also do it yourself and save on labour costs. Our Installation instructions show you how. Plus, over the longer term, you won't have to spend a lot of time or money on ongoing maintenance costs.

It's low maintenance

Once you've finished installing your steel fence, you can sit back, relax and enjoy it. Choosing steel for your fence means you won't have ongoing fence maintenance costs or headaches. There's no need to treat it, paint it, oil it, protect it from termites, or really even think about it again, except to notice how good it looks!

It looks good

Steel offers a versatile aesthetic to suit your taste and ensures your home, garden or pool fence looks modern and appealing. Whether you want a fence that makes a bold statement or one that complements and enhances your home's existing features and colours, you're sure to find one to match your style and needs in the Rapid Fence product range.

POOL PERFORATED MESH

Solid where you want privacy, open where you want light.

Precision-perforated from high-quality steel, the Perforated Mesh range brings together strength, style and airflow for screening or fencing around the home.

Compliant with AS1926.1, it pairs modern looks with trusted poolside protection. Panels come fully welded for a strong, seamless finish, and where a standard panel won't fit, the Frame Kit and Mesh Panel can be customised to suit.

Features

- Made from Maztech™ Steel for superior corrosion resistance and long-life durability
- 9mm hole diameter
- Each Frame Kit includes 4 x Brackets
- Pool Compliant
- 10 Year warranty
